

GAW Woodturners

The Georgia Association of Woodturners

GAW Newsletter—May 2022

President's Message

The Georgia Association of Woodturners (GAW) is a chapter of the American Association of Woodturners (AAW), dedicated to providing education, information and organization to those interested in woodturning. GAW serves those in the metro-Atlanta area. Click [here](#) to follow us on Facebook.

When:

Third Thursday of each month at
6:30 PM:

Where: Currently Online: Look for the link in your email!

Starting in June: [TFAC](#)

Meetings are open to all!

I hope everyone enjoyed our last month Thursday IRD by Alan Stratton on the “Introduction to Segmented Woodturning”. This month’s IRD will be Thursday May 19th with Harvey Meyer presenting “Turning Lidded Boxes” I hope I will see everyone on Thursday. The club lathe is working well and should be delivered to our new in person meeting site this month and will be ready for us to use in June at new in person meeting place, if everything goes as expected. I want to thank everyone who donated money for us to purchase the club lathe. I also want to thank Tim Robertson for going and picking it up and getting setup in perfect running order. The board has selected Harvey Meyer and Tony Raffalovich to serve on the GAW Scholarship Committee along with Charles Jackson, Steve Pritchard and Harry Saunders. If you have not you may want to look into a scholarship and sharpening up your turning skills in 2022. I look forward to seeing you all in person at the June meeting if everything goes as we have planned out. Our first in person live demo will be Dan Douthart doing “Bangles”.

Thank You,

Hans

May Remote GAW Meeting—Looking Ahead

For the demonstration at the May 19th GAW meeting, **Harvey Meyer** will demonstrate **how to turn lidded boxes**.

Describing the scope of his demonstration, Harvey says that “In this demo, I’ll turn a lidded box. Beginning with a 3” square blank, 4” long, I’ll show how to divide the blank into 2 parts for the lid and body of the box. I’ll begin with the lid first, explaining how I prepare it to fit the body of the box. At this time, I finish the inside of the lid. Attention will then shift to the body of the box where I will fit and temporarily attach the lid in order to finish the top portion. The lid will be fitted to the body with a “turner’s” fit (“pop” when lid is removed) and then eased slightly for everyday use. Then I will shape the body of the box and hollow out the inside to match the shape of the outside. The body of the box will then be reversed so that I can finish the bottom. Finishing techniques will also be discussed.

April Remote GAW Meeting—Looking Back

Our April demonstrator was *Alan Stratton* who provided an *Introduction to Segmented Turning*. An introduction to Allan in his own words: “I fell in love with woodturning a long time ago. At the time, I was a poor college student recently married and had no furniture. The university had a woodworking shop with a lathe. I learned how to use the lathe and made a living room set with turned spindles. We still have that furniture despite having moved back and forth across the country and recovering the cushions a couple of times.

His web site ([As Wood Turns](#)) has more information on Allan and all kinds of resources and videos on challenging projects!

in-

Update on New In-Person Meeting Location

Here is a brief update on the status of our new meeting location and our return to in-person meetings:

The plan is for our first in-person meeting at our new location to be on Thursday evening, June 16th. That being said, there are several things that need to happen between now and then for us to be ready. The chairs have been ordered and should be delivered in mid-May!

A HUGE thanks goes to Tim Robertson for all his efforts locating, picking up, and refurbishing the club's new Powermatic 3520C lathe (it was a scratch & dent opportunity). It represents a significant asset for the club and Tim says he has it ready to move into our new meeting space.

We want to be able to have hybrid meetings that offer the members the opportunity for in-person experience as well as the option to experience the meeting remotely if they don't want to travel that month. Before we will be able to have a hybrid meeting we could broadcast over Zoom, work will need to be done to set up and test the audio/visual/internet equipment.

Watch your e-mail for more information about how you can help us prepare for meetings at our new location.

Kim Muthersbough

Reminder: Do NOT Use Fractal Burning!

Steve Pritchard came across an article from Australia that points out that another person was killed by using a Lichtenberg or Fractal Burning machine. This is a method of embellishment using high voltage electrical current burn “fractals” into wood.

While the process does create interesting etchings in wood, several people have been killed using these devices. Since there is such a high level of danger and risk with these devices the AAW has banned their use—work using this technique is excluded from AAW exhibits and articles dealing with this technique are also excluded from any AAW publications. You can see the AAW article entitled *Fractal burning has killed and could kill you* [here](#). The latest case, from Australia, can be read [here](#). The bottom line is that this technique should be avoided because of the extreme danger. There are so many other embellishment methods available to us—please use any of those instead!

Lathe, p. 1218.

We still need donations for the club lathe so that we can have in person demo's when we go back to in-person meetings. You can help [HERE](#).

Have you been joining us for our Interactive Remote Demonstrations (IRDs) monthly? As much as we miss getting together in person, social distancing restrictions mandate that we continue to meet remotely, so IRDs are here to stay for awhile. Here is a short Zoom tutorial from John Kelsey of the Lancaster (PA) Area Woodturners, compliments of the AAW.

Zoom for newbies

To participate in virtual meetings you'll need to download the FREE Zoom software.

Desktop and laptop computer users should go online to zoom.us, join as a free basic member by entering your email and a password, and look under the "resources" tab for the download. Smartphone users, go to your app store for "zoom cloud computing." There are many concise videos on line showing you how to install and start Zoom.

Joining the meeting. When you receive an invitation in your email, just look for the Zoom link to join meeting, and click it.

Full screen. In the meeting, look in the upper right corner of your screen and click "enter full screen," to see the biggest picture.

Views. Also in the upper left, you'll see either "Speaker View" or "Gallery View," click to switch. In Gallery View, you see Hollywood Squares. In Speaker View, the person talking fills your screen. You can switch back and forth.

Mute/Unmute. Look in the lower left corner of your screen for a wee microphone, here you can Mute your sound, and Unmute. Switch back and forth to see how it works; in many setups, the space bar acts as a "press to talk" switch.

Smartphones will show a bigger better picture if you turn them sideways.

More Zoom controls appear as icons on the bottom of the screen. You can experiment with them.

Exit. Click "Leave the Meeting," in red at lower right, to end the session.

See you at the virtual meeting!

Help the GAW When You SHOP!

A reminder to all that you can help the GAW when you shop on Amazon.com. Instead of Amazon.com, enter the URL Smile.Amazon.com. When you shop on Amazon Smile a percentage of you purchases is donated to charity. And, the GAW is registered as one of the Amazon Smile charities!

Once you log in there is a menu selection “My Charity” where you can select the GAW as your charity!

Tell your friends to sign up for AAW's FREE membership!

Did you know that your friends and chapter colleagues can sign up to get all the benefits of online AAW membership FREE? Once they sign up, they'll get full access to all digital content including AAW publications *American Woodturner* and *Woodturning FUNDamentals*. Plus, they'll get a digital membership card, weekly and bimonthly e-newsletters, and have access to Explore, Video Source, online learning portals, optional public profile as a Demonstrator and/or Maker with image availability, and more. All of this is **FREE** for up to 90 days.

Here's where to sign up:

[Affiliate Membership: For friends who are members of local chapters.](#)

[Guest Membership: For friends who are unaffiliated with a chapter.](#)

Virtual Instant Gallery

VIRTUAL INSTANT GALLERY

While we are meeting virtually, our instant gallery must be virtual as well. Our monthly virtual meeting will contain a slide show of all work submitted up to **TWO days prior to the meeting date**.

If you have a piece that you want to show at the next meeting, please:

- Take a photograph of your work
- Write a description of the work
- Send each picture to editor@gawoodturner.org
- Include a description of the piece as you would at a meeting.
- They will be included in the next newsletter's "Virtual" Instant Gallery and shown at the next remote meeting.

Next month, if all goes according to plan, we will be meeting
live again!

That means that this is the last Virtual Instant Gallery for the GAW. You can still submit for this month's meeting, but after May 19th we, hopefully, will be live and in-person!

3. Rose Bush Stem
4. Tagua Nut

Wood Safety

Following is a link to a Fine Woodworking chart (with information drawn from several professional organizations) that lists woods that are known to cause respiratory problems and/or allergic reactions:

<http://www.finewoodworking.com/1977/12/01/toxic-woods>

AAW also has information on wood toxicity: <http://www.woodturner.org/default.asp?page=toxicity>

Another list of Wood Allergies and Toxicity: <https://www.wood-database.com/wood-articles/wood-allergies-and-toxicity/>

Always protect yourself from wood dust, especially when sanding—just because a wood doesn't appear on the list doesn't mean its dust should be breathed!

DVD and Video Tape Library

The Georgia Association of Woodturners (GAW) has instructional VHS and DVD videos available for rental before each GAW meeting. A partial listing of the videos is on the GAW website here. Only members may rent tapes and DVDs. Rentals are \$2.00 per month. Rentals are limited to 2 tapes or DVDs and the items must be re-

turned the following month. Late fees of \$2.00 per month will be assessed for each item not returned on time.

Editor's Note

Newsletter Content - Please let me know if you have any comments or suggestions for the Newsletter. Each month I look for some little additional content for the newsletter I welcome your shop notes, safety tips, links to interesting woodturning websites, items for sale or exchange, etc. And if you see something humorous that has a woodturning or woodworking connection, pass it along. You can reach me via email (editor@gawoodturner.org, at the monthly meetings, or by phone (770-872-0910).
